EDUCATION

Madhav Institute of Technology and Science

2022-2026

B.Tech - Computer Science and Engineering - CGPA - 8.5

Gwalior, India

Maharishi Vidya Mandir

2021

12th - Percentage - 90.6%

Jabalpur, India

EXPERIENCE/INTERNSHIP

Software Developer – AxiPays Technologies Pvt Ltd. 

June 2026 – Present

- Developed and maintained the **core AxiPays fintech platform website** using **React.js**, **CSS**, and **Framer Motion**, delivering a modern, highly interactive, and responsive user experience through creative UI/UX implementations across **10+ production pages**.
- Engineered a **fully responsive React dashboard** with **Role-Based Access Control (RBAC)**, **conditional rendering**, and dynamic routing, enabling secure access for multiple user roles while improving maintainability and scalability of the frontend architecture.
- Optimized application performance by implementing **lazy loading**, code splitting, memoization, reusable components, and efficient API integration, reducing unnecessary re-renders by **50%** and improving page load performance by approximately **70%**. Integrated **Error Boundaries** to enhance application resilience and user experience.
- Built data-driven analytics modules using **Recharts** and integrated **REST APIs** with efficient state management, delivering real-time business insights while reducing redundant API requests and improving frontend reliability in a fast-paced **fintech startup** environment.

Software Developer – Omniful Technologies Pvt Ltd. 

July 2025 – June 2026

- Engineered a **multi-tenant supply chain dashboard** using **React.js** and **Tailwind CSS**, supporting **whitelabeling** for multiple clients with tenant-specific configurations.
- Improved frontend performance** by **25–30%** via **lazy loading**, code splitting, and optimized rendering strategies.
- Managed global and server state using **Redux** and **React Query**, enabling scalable state architecture, **reducing redundant API calls** through caching, and improving application performance and data consistency.
- Debugged and **resolved 10+ production issues** using **Sentry**, enhancing application stability and reducing recurring bugs.
- Worked across **development, staging, and production environments**, actively handling **testing, debugging, and issue resolution** while implementing **RBAC** using **CASL** for secure, permission-driven access control.
- Improved UI stability and performance by fixing bugs, **refactoring global reusable components**, and optimizing rendering to **reduce unnecessary re-renders**.

Software Developer Intern - EduCerns Technologies

May 2025 - July 2025

- Developed and optimized production-ready UI pages for **GST Simulator** and **EduSkill exam platform** using **React** and **Tailwind CSS**, converting **Figma designs** into responsive, reusable components.
- Collaborated in an **agile environment**, participating in code reviews and cross-functional discussions while delivering consistent, quality updates through **regular production commits**.

TECHNICAL SKILLS

Frontend: React, Redux, React Query, TypeScript, JavaScript, Tailwind CSS, Performance Optimization, Component Architecture, Responsive design, Framer Motion, Bootstrap, SCSS, HTML5, CSS3

Backend: Node.js, Express.js, MongoDB, REST APIs

Tools & Languages: Git, GitHub, Postman, VS Code, Cursor, Figma, Sentry, C++, Python

PROJECTS

EduVerse [↗](#) | [React](#), [Redux](#), [Tailwind CSS](#), [Node.js](#), [Express.js](#), [MongoDB](#), [Cloudinary](#) Mar 2025

- Developed a high-performance **MERN** stack web application with separate portals for students and instructors, improving user engagement and course accessibility.
- Implemented **20+ interactive features** and advanced **CRUD** operations, reducing course-related queries by **30%** and increasing user satisfaction by **40%**.
- Enforced **JWT-based authentication** for access control and integrated **Cloudinary & Razorpay** for media management and secure transactions.

Personal Portfolio Website [↗](#) | [React Js](#), [Redux](#), [Framer Motion](#) Dec 2024

- Developed a **personal portfolio** using **React** and **Redux** with dynamic routing and **state management**.
- Incorporated **modern animations** using **Framer Motion** for a smooth and **engaging user experience**.
- Designed a **fully responsive, cross-browser compatible UI** for mobile and desktop devices.

CODING PLATFORMS & ACHIEVEMENTS

- | | |
|---|---|
| • 350+ DSA Questions on LeetCode ↗ | • Social Media Lead – GDG On Campus |
| • Technical Lead – IETE | • 2nd Rank – Web Development Competition ↗ |
